

Treatment Center Report

July 5, 2007

Oliver R. (richaoj@gmail.com, 601.291.7765)

First off, I would like to apologize for the Whitfield fiasco over the list. I have been slacking on that and I would like to apologize. I am going to make an earnest attempt to be better about updating, printing, and notifying the people on the list.

To help solve the problem of groups who are not showing up being paired together on the list, what I've done is gone through the last three months of minutes and looked at the attendance. I have paired each week a group that has come regularly with a group that rarely (if ever). There was a little overlap from the groups who do show up . . .

Hopefully this, combined with a printed list and an updated copy on the website, will allow for easier trips to Whitfield. If anyone sees an error or has been omitted from the list, please let me know via a phone call, email, or after the meeting so as to not take up too much meeting time with reports.

Other than that, I have an updated copy of the volunteer list for phone calls and treatment centers. These will be distributed to the phone service and the Central Office.

We had no calls from treatment centers this month requesting volunteers or speakers, a strange drop off, so I will be making calls again to make sure the TC know that we are available to help with these services. Please help notify and make people aware that the Intergroup offers this service.

How the service is supposed to work – during office hours, people are to call the central office to request temp sponsors, 5th steps, or speakers. After hours, they can reach me via email or phone. Me or the central office manager will place a call to the volunteer, giving them the treatment centers name and phone number. Information will not be given out over the phone as per Brian's concerns when the program was initiated.

Thanks for the opportunity to serve . . .
